

CASPARI FOUNDATION

POLICY AND PROCEDURE FOR REACCREDITATION TO THE UKCP CHILD REGISTER

1. Introduction

The purpose of the reaccreditation process is to ensure that professional standards of all psychotherapists trained to work with children and young people (CYP) are maintained at the highest possible level and that all Educational Psychotherapists participate in on-going Continuing Professional Development throughout their professional life.

The Caspari Foundation is an Organisational Member (OM) of the UKCP Child College (CCAP). It is also an Organisational Member of the College for Psychoanalytic and Jungian Analysis (CPJA). For reaccreditation purposes, the requirements of the Child College override those of the CPJA.

All Educational Psychotherapy members of the Caspari Foundation who are on the UKCP Child Register are required to apply for reaccreditation on a 5-yearly cycle. The purpose of reaccreditation is to ensure that professional and ethical standards are maintained across the profession and developments within the profession of working with children and young people (CYPs) are followed and understood.

In line with its Organisational Member obligations to the UKCP Child College, the Caspari Foundation has a robust process in place for its members to follow in order for them to remain on the Child Register.

Responsibility for monitoring and moderating reaccreditation applications lies with the Caspari Foundation Ethics and Professional Affairs Committee (EPAC).
